

ARTIFACT

(REMOTE EDITION)

The goal of the activity is to encourage open dialog and reflection through the use of artifacts, or objects that are laying around.

REQUIRED MATERIALS:

- Computer
- Functioning webcam
- Use of a video conferencing service

ESTIMATED TIME REQUIRED:

15 MINUTES

DIRECTIONS:

1. Ask each participant to look around their room and choose an object based on a prompt/question.

For example:

- (+) Best describes your organization
- (+) Best describes where you've been and where you want to go (*must choose two objects*)
- (+) Reminds you of your childhood
- (+) Best describes you as a whole person
- (+) Represents your community
- (+) Represents what it means to be a good leader

(Variation to encourage creativity within limitations: ask participants to select an object without getting out of their chairs.)

2. Once each person has selected an item, discuss why each person chose the object they did and how it relates to them.
3. Remind participants to hold up their object in front of the camera so everyone can see it.
